"The South 40"
by JAMES A. SMITH
EXTENSION AGENT

Which tomato for '72 will you select. There are numerous varieties and the vivid descriptions in seed catalogs further confuse the question.

Most home gardeners are looking for a full season. Two good ones are Tropic and Terrific. These are 82 and 70 day varieties. Springset is a 65 day tomato that went over real big with commercial producers in '71. I understand that all Springset seeds have been sold. This attests for its popularity.

* * *

There's a new fungicide that will be recommended for spraying tomatoes this year. It's called Bravo. The big advantage over those in current use is its ability to stick to the plant, even in wet weather. Tomatoes must be protected from blight.

* * *

We need just one good dark tobacco grower to participate in the variety test. Several years ago we had a grower in six counties. Appomattox has not been among those counties for several years. Unless a grower will volunteer to assist with this important program, we'll only have two counties participating this year.

This program is designed to compare commonly grown varieties with advanced crosses and strains. The test consists of 1.5 acres using six varieties, replicated two. As an incentive the grower receives 15 percent of the gross sales.

We need a grower. If you are interested, please give this office a call.

* * *

Tramisol, a wormer, has been around for several years. It is used to control roundworm, nodular worms, and lung worms. This material now has clearance for use in swine.

Better compare prices when selecting pesticides. There may be some advantage to alternating kinds of materials.

* * *

We've had calls in recent days from farmers in nearby counties who are interested in purchasing dark tobacco allotments.

* * *

Last year we were successful in establishing two Midland Bermuda plots.

Just this week we received a rundown on cost for using the equipment owned by the Piedmont Soil and Water Conservation District.

Cost per acre for the sprigger is $35 per acre. Mileage for sprigs from the source to your farm is 19¢ per mile. The grower will provide a three-point hitch tractor, 45 H.P. or better.

This is rather costly and I believe we'll want to suggest a wait and see attitude. By late summer the two plots in this county should have developed a good cover. Growers will be invited to see the grass and evaluate its use for their forage system.

However, if there are growers who want to put in some sprigs this spring, we'll be glad to work with them.

Let's Help A Hereford

Lice are irritating to animals as evidenced by the loss of hair from this Hereford bull. Generally the economic loss is much greater in young cattle than it is with adult cattle, J. A. Smith, Extension Agent, explained today. Smith pointed out that there were insecticides available as dust, spray, or pour-on that gives excellent control when applied properly.

We were very happy do see Mr. Matthew Pankey feeling well enough to attend church services Sunday. But we were sorry that the mother of the church, Mrs. Willie Wheeler, couldn't. We hope that when the weather gets better she'll once again be attending church and Sunday School regularly. We also missed Deacon John Jones, our oldest deacon.

We hope his health will soon improve so he'll once again be in his regular seat at church.

Master Harry Carter, Jr. has returned to the hospital for treatment. We hope he'll soon be back home and in school.

SCOUTS ENJOY "THINKING DAY"

Junior Girl Scouts of Troop 322, Appomattox, were hostesses for "Thinking Day" on Tues., Feb. 22. This is a day set aside by Girl Scouts everywhere to consider their Scouting program and the many pleasures and benefits they derive from it.

The Juniors met at the home of their leader, Mrs. Margaret Thompson, for an evening program which were shared by Brownies of Troop 308 and their leaders, Mrs. Peggy Clark, Mrs. Gail Flint and Mrs. Rachel Lee, assistant leader.

A flag ceremony, games, singing and refreshments were enjoyed by both troops.

PROGRAM TOPIC IS 'DRAMA'

Various aspects of drama and acting were considered by members of the Delta Zeta Chapter, Beta Sigma Phi, meeting Monday evening at the home of Mrs. Bobby Stanley.

Program leader was Mrs. Stanley, with chapter members acting out phrases and various emotions by means of pantomime.

The chapter made plans for a sandwich and hot dog sale Saturday at Percy George's Auction Center and reviewed plans for celebrating the founding of the chapter this month. The members also voted for "Girl of the Year." Next meeting — home of Mrs. Sheila Smith.

Local Men See '500'

Greg Martin, Gene Paulette and F. D. O'Brien were among more than 30,000 racing fans watching the Richmond 500 Sunday as Richard Petty of Randleman, N.C. outran Bobby Allison of Hueytown, Ala. for his second victory of the 1972 NASCAR Grand National stock car session.

Bobby Isaac finished third in a Dodge. Petty drove his familiar blue Plymouth and Allison drove a Chevrolet. Fourth was Dave Marcis, driving a '70 Dodge and 5th, Bill Dennis, a '71 Ford.

The race was slowed down three times by caution flags and 14 of the 30 starters were running at the finish.

F. D. O'Brien said a big thrill of the afternoon was the appearance of four jets flying in formation. They flew east-west over the track said O'Brien and midway in the formation, one of the jets pulled away from the others to honor the "lost men" in Vietnam.

Gov. Linwood Holton presented Petty with a trophy and the winner's share of the money. He also started the race with the familiar cry, "Gentlemen, start your engines."
